

FREE HEALTH CARE

Free Medical Info! **Free** Prescription Drugs! And More!

Sam Donaldson got his cancer surgery done for free from a little-known government program. This year Uncle Sam will spend TWICE as much on free health-related services than it does on defense and the average person has no idea where they are.

Why pay for treatment at a local hospital...when some of the best doctors in the world get government money to perform procedures and operations for free?

Why pay \$200 to a doctor to answer a health question...when you can get better answers from a FREE medical researcher who spends a lifetime and millions of dollars studying just your disease? They can tell you what will be in the medical journals next year because they are financing the research today.

Why pay the high cost of prescription drugs...when you might be able to get them for free?

Why spend money on health books at the book store...when you can get FREE books, pamphlets and even videos that are more complete and more up-to-date?

Why pay for a medical visit when you're unemployed or without insurance ...when you can get free treatment right near your home?

Why be harassed by a hospital for not paying a bill...when you can show that the hospital has to treat you for free is you can't afford to pay?
